From: "CHRISTIAN, ELIOT" <ECHRISTI@USGS.GOV>

Brewster, the week of November 9 looks real good except for the 13th. Please let me know when would be good for your schedule and Tim and I will accommodate.

We'd like to spend as much time as you can spare and need not be constrained by daytime working hours or the Veterans Day holiday on November 11.

Hope to hear from you soon..
Christian

How about the afternoon of Wed the 11th? We could spill over into dinner...

Barbara Lincoln Brooks will be there as well. She just joined WAIS Inc!

Brewster:

Eliot is having a **wonderful** time trying to mail this message to you. He's given up and come to the experts for help, so...

Tim [sic] and I are looking forward to getting together with you and Barbara for the afternoon/evening of November 11. I'll be glad to do the driving if you'll let me know where and when to pick you up. Otherwise, I'll provide directions from wherever.

Bye for now..

Christian

Yes, computers are fundamentally bad for human beings. but they are such fun!

I will be in Crystal City at NASA for the morning and lunch. How about meeting at around 2pm or so. Jim Erwin is my contact there 703-271-5605. I dont know exactly where yet.
